

# Recycling resumes in Goodyear

Wednesday, May 27, 2020

---

The City of Goodyear announced that beginning Monday, June 1, the city's solid waste provider, Right Away Disposal (RAD), will resume collecting curbside trash and recycling containers separately. RAD is reopening their recycling operations in phases to reach normal operations in the next several weeks. Thank you for your help to keep non-recyclables out of the recycle bin. Your continued commitment will ensure the ongoing success of the recycle program. Not sure if something can be recycled? Ask the Recycle Right Wizard at [www.goodyearaz.gov/recycle](http://www.goodyearaz.gov/recycle) to find out what can and can't be recycled.
