

Reminder for mask use in the community

Friday, January 15, 2021

Recently HOA staff, club leaders and others in the community have seen and reported more and more people, especially in the area of sports courts, not wearing a mask. This message is to remind all residents and their guests that mask wearing is not an option when in areas designated for mask use, including sports courts (when not engaging in the strenuous activity of play*), gyms, entering and moving about any building, and all pools. *Please note that due to the nature of Bocce Ball play, and per their Club rules, masks must be worn even during play on all Bocce Courts, except when the individual is up, by themselves, to throw.

Masks should be well-fitting and cover your nose at mouth. Please visit the HOA's dedicated webpage for all the COVID-19 information produced for the community to date. This page will link you to HOA guidelines, external resources and internal information distributed.
